FLYWHEELS				
Single Mass Flywheel	XFJE112	XClutch flywheels are designed and engineered to meet high quality standards and remain at a similar weight to the factory flywheel, to retain the most desirable driving characteristics.	NA	NA
HYDRAULICS				
Braided Clutch Line	XCH-JE01	Braided clutch line covered with a protective outer sleeve for improved strength over the factory rubber line. This braided line is less prone to cuts from foreign objects and has the added benefit of not flexing as much under pressure. This creates a better pedal feel compared to the original rubber lines.
