XClutch Ford Mustang Range

The S550 Mustang is the first to be sold globally and with a 5.0L Coyote V8, was quickly developed by aftermarket tuning groups for improved power and overall performance. XClutch were quick to develop several performance upgrades for these vehicles including organic multi-discs for high horsepower street use and ceramic multi-discs for dedicated motorsport applications. XClutch also developed a carbon multi-disc for very high horsepower motorsport applications that require low inertia and very high heat capacity
